Quality Policy

It is the established policy of Pronat to provide its customers with products and services of the highest practicable standard and to ensure that customer and regulatory requirements needs are met. The Top Management in Pronat shall establish, implement, and maintain a quality policy that:

- Is appropriate to the purpose and context of the organization and supports its strategic direction.
- Is committed to satisfy applicable requirements.
- Supports its customers in developing and manufacturing high quality components and parts, to meet customer requirements, while following international standards and regulations, for Medical Devices, Aerospace & Defence industries.
- Ensures the conformance of the product specifications to customer and relevant regulatory requirements.
- Plans, implements, and controls a process for managing risks as well as determines and selects opportunities for improvement.
- Is committed to act in order to continuously improve both our performances and our quality management system.
- Provides a framework for setting quality objectives as well as continually meet and exceed our quality goals.
- Determines and provides the resources needed to ensure valid and reliable results when monitoring or measuring is used to verify the conformity of products and services to requirements.
- Is aware of the importance of ethical behaviour (in accordance with SOP-078).
- Is communicating the Quality Policy, which has to be available to all roles in the company.

Jeremy Rosenstein,
Managing Director
